Solving the phase boundary between two solid phases via the common tangent procedure

David C. de Busturia

Department of Chemistry. Imperial College London

Sunday 10th June, 2018

Outline

$E(V)$, $E(V) + E_{ZP}$, $F(V;T)$ and pressure of transition. Thermal evolution

Phase Boundary

Outline I

$E(V)$, $E(V) + E_{ZP}$, $F(V;T)$ and pressure of transition. Thermal evolution

Phase Boundary
